

Extended Day Billing

The Extended Day program will be going paperless! Starting March 1, 2018 we will be using the myschoolbucks.com website. All invoices will be created through myschoolbucks.com and will be sent via email or through your account on my myschoolbucks.com.

The easiest way to view your invoice will be to create an account through the myschoolbucks.com website. When you create an account you will be sent to an email (or if you download the App a message will be sent to your phone) that will inform you that you have a notification on your account. You will be able to view your Extended Care invoice and pay for your invoice through the website.

** You can pay online with a credit card or you will still be able to come into the office and pay with a check or cash.

To create an account on the myschoolbucks.com website you will need to know your student's ID number (your student will know this as their library or lunch card number). Your student's ID number is located on their picture identification card, report card or you can obtain their number from the school's front office.

If you need help creating an account there is a help feature on the website that can walk you through the process.

If you have problems or concerns about creating an account through myschoolbucks.com please see Debbie Ferrera in the front office.
